

Day 2 Exit Slip

Geometry Summer Credit | Slope and Transversals

Name:	Date:	Score:
-------	-------	--------

Directions: Show your setup. This is a quick check, not a long assignment.

1.	Find the slope through $(-2, 7)$ and $(4, 1)$.
2.	A line has slope $\frac{3}{5}$. What is the slope of a perpendicular line?
3.	Parallel lines are cut by a transversal. Same-side interior angles are labeled $2x + 30$ and $4x + 18$. Find x .
4.	Error analysis: A student says alternate interior angles are supplementary. Explain the mistake.
