

Day 27 Hybrid Notes

Use geometry to make a real decision | Cloze + outline + active learning

Name:	Date:	Period:
-------	-------	---------

Learning Targets
I can choose a realistic modeling question.
I can make assumptions and use geometry formulas to support a decision.
I can explain my model, its result, and one limitation.

Part 1: Cloze Notes - Essential Ideas
1. A capstone model starts with a clear mathematical _____.
2. An assumption is something we treat as true to make the model _____.
3. A constraint is a requirement or limit the design must _____.
4. Covering or wrapping usually uses _____.
5. Filling or capacity usually uses _____.
6. A strong final answer includes a number, a unit, and a _____.
7. A limitation explains what the model ignores or _____.

Part 2: Outline Notes - Big Picture A. The capstone connects Geometry to real _____. B. Your diagram should show the measurements used in the _____. C. Your formulas should match the units and the _____. D. Your presentation should explain the result in everyday _____. _____	Connection to Prior Math 1. What algebra skill shows up today? _____ 2. What diagram or graph skill shows up today? _____ 3. What is one place this could appear outside math class? _____ —
---	--

Most Important Reminder
Before solving, label the diagram, name the relationship, and check whether the answer makes sense.

Day 27 Hybrid Notes

Guided setup + active learning

Part 3: Guided Setup Practice

1. A container must hold at least 500 cm³. A cylinder has radius 4 cm and height 10 cm. Does it work?
Setup/work: _____
Answer: _____
2. A wall is 24 ft by 9 ft. Paint covers 350 sq ft per gallon. How many gallons are needed?
Setup/work: _____
Answer: _____

Part 4: Error Analysis

A student gives only a calculation and no final decision.
What is missing?
What went wrong?

Correct idea:

—

Before You Solve Checklist

- ☐ I labeled the diagram or graph.
☐ I chose the correct relationship or formula.
☐ I substituted values carefully.
☐ I checked whether my answer makes sense.

Part 5A: Draw It

Draw a diagram, graph, or labeled example that matches today's lesson.

Part 5B: Two-Sentence Summary

Sentence 1: Today I learned that _____.

Sentence 2: One thing I need to remember when solving is _____.

Part 5C: Application Problem

Write a one-sentence capstone question for a package, room, ramp, shadow, or map.
Setup: _____
Answer: _____
Sentence answer: _____
