

Day 27 Required Capstone Rubric

Geometry Summer Credit | Student Copy

Name:	Date:	Score:
-------	-------	--------

Capstone Goal

Use geometry to model a real situation, make a decision, and communicate your reasoning clearly. This capstone is required and counts toward the course grade.

Rubric: 40 Points

#	Answer	Teacher notes / work
Question and context	8 pts	Clear real-world question; context is specific and measurable.
Diagram and assumptions	8 pts	Labeled diagram or model; assumptions are stated and reasonable.
Geometry and calculations	12 pts	Correct formulas, calculations, units, and enough work to follow the reasoning.
Decision and limitation	6 pts	Final answer/recommendation addresses the question and names a limitation.
Communication	6 pts	Presentation is organized, concise, and understandable.

Presentation Checklist

1.	I stated my modeling question and context.
2.	I showed a diagram/model and named assumptions.

3.	I showed calculations with units.
----	-----------------------------------

4.	I gave a final decision and limitation.
----	---

5.	I practiced explaining my result in everyday language.
