Name:	Date:	Score:
-------	-------	--------

Directions

Show the coordinate rule or describe the move.

1.	Translate A(-5, 2) by $\langle 7, -4 \rangle$.
2.	Reflect B(6, -3) across the y-axis.
3.	Rotate C(-4, 1) 90 degrees counterclockwise about the origin.
4.	Dilate D(8, -6) by scale factor $\frac{1}{2}$ from the origin.
