

Day 01 Hybrid Notes

Coordinate geometry foundations and angle relationships | Cloze + outline + active learning

Name:	Date:	Period:
-------	-------	---------

Learning Targets
I can use the coordinate plane to name points and calculate distance.
I can find the midpoint of a segment.
I can use angle vocabulary to solve for missing angle measures.

- Part 1: Cloze Notes - Essential Ideas**
- 1. The coordinate plane uses an x-axis and a y-axis that meet at the _____.
 - 2. Distance measures the length between two _____.
 - 3. The midpoint is the point halfway between two _____.
 - 4. Complementary angles add to _____.
 - 5. Supplementary angles add to _____.
 - 6. Vertical angles are _____.
 - 7. A linear pair forms a straight angle, so the angles are _____.

- Part 2: Outline Notes - Big Picture**
- A. Coordinate geometry connects geometry to _____.
 - B. Distance comes from horizontal and vertical changes, like a right _____.
 - C. Midpoint averages the x-values and averages the _____.
 - D. Angle equations use given relationships before _____.

- Connection to Prior Math**
- 1. What algebra skill shows up today?

 - 2. What diagram or graph skill shows up today?

 - 3. What is one place this could appear outside math class?

Most Important Reminder
Before solving, label the diagram, name the relationship, and check whether the answer makes sense.

Day 01 Hybrid Notes

Guided setup + active learning

Part 3: Guided Setup Practice

1. Points A(2, 3) and B(8, 11). Find the distance and midpoint.
Setup/work: _____
Answer: _____
2. A linear pair has angles $(3x + 20)$ degrees and $(5x)$ degrees. Find x .
Setup/work: _____
Answer: _____

Part 4: Error Analysis

A student says the midpoint of A(2, 3) and B(8, 11) is (10, 14).

What went wrong?

Correct idea:

—

Before You Solve Checklist

- ☐ I labeled the diagram or graph.
- ☐ I chose the correct relationship or formula.
- ☐ I substituted values carefully.
- ☐ I checked whether my answer makes sense.

Part 5A: Draw It

Draw a diagram, graph, or labeled example that matches today's lesson.

Part 5B: Two-Sentence Summary

Sentence 1: Today I learned that _____.

Sentence 2: One thing I need to remember when solving is _____.

Part 5C: Application Problem

A classroom map shows a desk at (1, 2) and a charger at (7, 10). How far apart are they?
Setup: _____
Answer: _____
Sentence answer: _____
