

Day 02 Hybrid Notes

Line relationships and algebra with angle pairs | Cloze + outline + active learning

Name:	Date:	Period:
-------	-------	---------

Learning Targets
I can calculate slope from two points.
I can identify parallel and perpendicular slopes.
I can solve angle problems formed by transversals.

Part 1: Cloze Notes - Essential Ideas
1. Slope measures vertical change divided by horizontal _____.
2. Parallel lines have the same _____.
3. Perpendicular lines have slopes that are negative _____.
4. A transversal is a line that crosses two or more _____.
5. Corresponding angles are congruent when lines are _____.
6. Alternate interior angles are congruent when lines are _____.
7. Same-side interior angles are _____.

Part 2: Outline Notes - Big Picture A. Slope connects graphing lines to _____. B. Parallel means lines stay the same distance apart and never _____. C. Perpendicular means lines meet at a _____. D. Angle-pair equations use relationships before _____. _____	Connection to Prior Math 1. What algebra skill shows up today? _____ 2. What diagram or graph skill shows up today? _____ 3. What is one place this could appear outside math class? _____ —
--	--

Most Important Reminder
Before solving, label the diagram, name the relationship, and check whether the answer makes sense.

Day 02 Hybrid Notes

Guided setup + active learning

Part 3: Guided Setup Practice

1. Find the slope through (2, 5) and (6, 13).

Setup/work: _____

Answer: _____

2. A line has slope $\frac{3}{4}$. What is the slope of a perpendicular line?

Setup/work: _____

Answer: _____

Part 4: Error Analysis

A student says a line perpendicular to slope -2 has slope 2.
What went wrong?

Correct idea:

—

Before You Solve Checklist

☐ I labeled the diagram or graph.

☐ I chose the correct relationship or formula.

☐ I substituted values carefully.

☐ I checked whether my answer makes sense.

Part 5A: Draw It

Draw a diagram, graph, or labeled example that matches today's lesson.

Part 5B: Two-Sentence Summary

Sentence 1: Today I learned that

_____.

Sentence 2: One thing I need to remember when solving is

_____.

Part 5C: Application Problem

A ramp rises 6 inches over a horizontal distance of 48 inches. What is the slope?

Setup: _____

Answer: _____

Sentence answer: _____
