

Day 08 Hybrid Notes

Scale factor and proportional reasoning | Cloze + outline + active learning

Name:	Date:	Period:
-------	-------	---------

Learning Targets
I can describe a similarity transformation.
I can use scale factor to compare similar figures.
I can use AA similarity to show triangles are similar.

Part 1: Cloze Notes - Essential Ideas
1. Similar figures have the same shape but not necessarily the same _____.
2. A dilation changes size by a scale _____.
3. Scale factor equals image length divided by original _____.
4. Corresponding angles in similar figures are _____.
5. Corresponding side lengths in similar figures are _____.
6. AA Similarity uses two pairs of congruent _____.
7. A scale factor greater than 1 creates an _____.

Part 2: Outline Notes - Big Picture A. Similarity connects transformations to _____. B. Dilations preserve angle measure but change _____. C. AA similarity is efficient because triangle angles sum to _____. D. Proportions require matching corresponding _____.	Connection to Prior Math 1. What algebra skill shows up today? _____ 2. What diagram or graph skill shows up today? _____ 3. What is one place this could appear outside math class? _____ —
--	--

Most Important Reminder
Before solving, label the diagram, name the relationship, and check whether the answer makes sense.

Day 08 Hybrid Notes

Guided setup + active learning

Part 3: Guided Setup Practice

1. A segment of length 6 is dilated to length 15. Find the scale factor.
Setup/work: _____
Answer: _____
2. Two triangles have angle pairs 40 degrees and 70 degrees congruent. Are they similar?
Setup/work: _____
Answer: _____

Part 4: Error Analysis

A student uses $\frac{6}{15}$ and says the scale factor from small to large is 0.4.

What went wrong?

Correct idea:

—

Before You Solve Checklist

- ☐ I labeled the diagram or graph.
☐ I chose the correct relationship or formula.
☐ I substituted values carefully.
☐ I checked whether my answer makes sense.

Part 5A: Draw It

Draw a diagram, graph, or labeled example that matches today's lesson.

Part 5B: Two-Sentence Summary

Sentence 1: Today I learned that _____.

Sentence 2: One thing I need to remember when solving is _____.

Part 5C: Application Problem

A photo is enlarged by scale factor 3. A 4-inch side becomes what length?

Setup: _____
Answer: _____
Sentence answer: _____
