

Day 20 Hybrid Notes

Choosing a strategy before calculating | Cloze + outline + active learning

Name:	Date:	Period:
-------	-------	---------

Learning Targets
I can find the area of polygons and composite figures.
I can use coordinate distances to find area and perimeter.
I can explain whether a problem asks for boundary length or inside region.

Part 1: Cloze Notes - Essential Ideas
1. Area measures the inside region of a figure in _____.
2. Perimeter measures the distance around a figure in _____.
3. A triangle's area formula is _____.
4. A trapezoid's area uses the average of the two _____.
5. Composite area problems often require adding or _____.
6. On the coordinate plane, horizontal and vertical distances come from coordinate _____.
7. Diagonal side lengths can be found using the _____.

Part 2: Outline Notes - Big Picture A. Area formulas connect today's geometry to prior work with _____. B. Composite figures are easier when you identify full shapes and _____. C. Coordinate area connects graphing, distance, and geometric _____. D. This prepares students for Algebra 2 modeling and Trigonometry word _____.	Connection to Prior Math 1. What algebra skill shows up today? _____ 2. What diagram or graph skill shows up today? _____ 3. What is one place this could appear outside math class? _____ —
--	--

Most Important Reminder
Before solving, label the diagram, name the relationship, and check whether the answer makes sense.

Day 20 Hybrid Notes

Guided setup + active learning

Part 3: Guided Setup Practice

1. A 20 by 14 rectangle has a 6 by 5 rectangle removed. Find the remaining area.

Setup/work: _____

Answer: _____

2. Triangle P(0, 0), Q(10, 0), R(10, 8). Find area and perimeter.

Setup/work: _____

Answer: _____

Part 4: Error Analysis

A student uses perimeter when the problem asks for area.

How can you catch the mistake?

What went wrong?

Correct idea:

—

Before You Solve Checklist

☐ I labeled the diagram or graph.

☐ I chose the correct relationship or formula.

☐ I substituted values carefully.

☐ I checked whether my answer makes sense.

Part 5A: Draw It

Draw a diagram, graph, or labeled example that matches today's lesson.

Part 5B: Two-Sentence Summary

Sentence 1: Today I learned that

_____.

Sentence 2: One thing I need to remember when solving is

_____.

Part 5C: Application Problem

A garden is a 30 ft by 18 ft rectangle with a semicircle of diameter 18 ft attached. Find the exact area.

Setup: _____

Answer: _____

Sentence answer: _____
