

Day 28 Hybrid Notes

Course synthesis and Algebra 2/Trig transition | Cloze + outline + active learning

Name:	Date:	Period:
-------	-------	---------

Learning Targets
I can choose the right tool for mixed Geometry problems.
I can explain my reasoning on a short written final.
I can connect Geometry skills to future math courses.

Part 1: Cloze Notes - Essential Ideas
1. Coordinate geometry uses slope, distance, and _____.
2. Similarity problems often use scale factors and _____.
3. Right-triangle trig uses sine, cosine, and _____.
4. Circle equations use center and _____.
5. Arc length uses circumference, while sector area uses circle _____.
6. Volume is measured in _____.
7. A good model includes a number, a unit, and a _____.

Part 2: Outline Notes - Big Picture A. Algebra 2 will build on equations, graphing, transformations, and _____. B. Trigonometry will build on right triangles, circles, radians, and _____. C. Mixed problems become easier when you identify the topic _____. D. A strong final answer includes setup, units, and _____. _____.	Connection to Prior Math 1. What algebra skill shows up today? _____ 2. What diagram or graph skill shows up today? _____ 3. What is one place this could appear outside math class? _____ _____
--	--

Most Important Reminder
Before solving, label the diagram, name the relationship, and check whether the answer makes sense.

Day 28 Hybrid Notes

Guided setup + active learning

Part 3: Guided Setup Practice

1. A circle has radius 10 and central angle 72 degrees. Find sector area.

Setup/work: _____

Answer: _____

2. A right triangle has angle 42 degrees and adjacent side 15. Find the hypotenuse.

Setup/work: _____

Answer: _____

Part 4: Error Analysis

A student finds arc length when the problem asks for sector area.

What went wrong?

Correct idea:

—

Before You Solve Checklist

☐ I labeled the diagram or graph.

☐ I chose the correct relationship or formula.

☐ I substituted values carefully.

☐ I checked whether my answer makes sense.

Part 5A: Draw It

Draw a diagram, graph, or labeled example that matches today's lesson.

Part 5B: Two-Sentence Summary

Sentence 1: Today I learned that

_____.

Sentence 2: One thing I need to remember when solving is

_____.

Part 5C: Application Problem

Name one Geometry skill that will help in Algebra 2 or Trigonometry.

Setup: _____

Answer: _____

Sentence answer: _____
