Directions

Show the ratio, scale factor, or proportion you used.

1.	A dilation by scale factor 4 maps a side of length 6 to what length?
2.	Dilate $P(-3, 5)$ by scale factor 2 about the origin.
3.	Two triangles have two matching angle pairs. What similarity shortcut applies?
4.	Triangle ABC is similar to triangle DEF. $AB = 8$, $DE = 20$, $BC = 12$. Find EF.
